

Kashif Ibadullah Khan, Love For You

Help me
Someone help me
I think I need therapy
I don't understand me

I don't know why I do what I do
I don't know why I fall in love so easily
I don't know why I love you
But I do

I know we're now through
But I still love you
I know you'll always mean
Something to me

You tell me you love me
But you say it won't work out
I hate it when you say that
I just have to shout

I hate how you say that
Because I know that it's true
But baby my heart is fat
'Cause it's full of love for you!
