

Kashif Ibadullah Khan, Wish I Never

I can't believe you, Everything about you
You mademe feel so special, Knowing I was your girl
You told me, You'd never mistreat me
But you did, So I said

Chorus:

*Get out, out of my life
Runaway, from this knife
Sorry to say, I stand my own ground
So I 'aint keepin' you around, Boy!
Don't treat me like your toys, I have a heart
That's something that ofer gets ripped apart, By guys like you
You waste my time, I wish I never
Wish I never, Wished you were mine, oh*

It's your fault, I hate you
We 'aint gonna grow old, Together
'Cause you couldn't forget about her, If only you just let it go
She is in the past, But now I am too
That came too fast, You played with my mind
You stole my heart, You gave it back to me
But ripped apart, I hate to have to kick out
But you made me wanna, screm and shout, oh

Chorus

You made me feel so special, Knowing I was your girl
You played with my heart, You gave it back to me
But ripped apart

Chorus

I wish I never [never] wished you were mine, oh
