## Kashmir, The Cynic

So pull me out of this dream
Turn off the television
Put on a romantic vinyl
And come to bed again
Please be my next morning flower
But don't be there all the time
Leave me a couple of hours
Then bring me food and wine

(chorus)
Play with me, play with me
Don't tell me how it feels
Don't let it be for real
Don't tell me how you feel

I'll make this week disappear Like I've erased several months It's turning into a year now And I'm still a manikin You're so poetic when you're sad So tiring when you cry We could fly out and get married I think I love you now

(chorus)
Play with me, play with me
Don't tell me how it feels
Don't let it be for real
Don't tell me how you feel
Play with me, play with
Don't tell me how it feels
Don't let it be for real
Don't tell me how you feel
