

# Kasia Klimczyk, I Got You

Just said I need you  
Just said I need you so bad  
Look around me settle down  
You standing on the corner  
Spying on me  
I'm not alone here anymore

I got you  
I got you  
So I don't need to be sad

Everyday with you  
It's the best I gotta do  
Appreciate what you have  
Appreciate what you have  
You never know when he goes

Sometimes it's not as it should be  
Sometimes the wind blows in your eyes  
I'm not worried i haven't got reason  
When you're with me  
I'm not alone here anymore  
I got you I got you  
So I don't need to be sad

Everyday with you  
It's the best i gotta do  
Apreciate what You have  
Apreciate what you have  
You never know when he goes
