

Kasia Moś, Wild Eyes (feat. Norma John)

Silence, silence /x2

I've been everywhere
looking for a reason to stay

Honey, by the fear
never finding may way

It's been raining for days now
My darling
I wish I could stop the sky from falling

I've been everywhere
looking for a reason to stay

Now, I'm standing in silence, silence
Now, I'm standing in silence, silence

Try to find if this still is spark underneath
I'm burning on
like a cigarette between your teeth

Never (...)
I can barely see you staring at me

Try to find if this still is spark underneath

Now, I'm standing in silence, silence
Now, I'm standing in silence, silence

Close in
Wild Eyes
Close in
Wild Eyes
/x2

Now, I'm standing in silence, silence
Now, I'm standing in silence, silence
