

# Kaskade, I Feel Like

So much here to lean on  
So much loneliness to lose  
And when we stumble  
We'll have each other  
So all we have to do is choose

We're gonna see  
That we can feel  
We're gonna fly  
This time love can be real

As we look into the future  
And we celebrate the past  
It's more than now, it's forever  
I know this love is meant to last

We're gonna see  
That we can feel  
We're gonna fly  
This time love can be real
