

Kaskade, I Feel Like

So much here to lean on
So much loneliness to lose
And when we stumble
We'll have each other
So all we have to do is choose

We're gonna see
That we can feel
We're gonna fly
This time love can be real

As we look into the future
And we celebrate the past
It's more than now, it's forever
I know this love is meant to last

We're gonna see
That we can feel
We're gonna fly
This time love can be real
