

# Kaskade, Step One Two

Wake up, so much you and I can be  
Far beyond the face that we can see  
Listen to the silent prayer as it goes up so, to the sky  
So we step one two, then you know the rhythm now  
Step one two, let the music seep in  
Step one two, move with me  
There's nothing to it, so come on  
So come on, so come on  
Come on, you and I will be in love  
So in love, so helpless so new  
Knowing we will ever see  
The world is on a sea and feel the love  
And feel the love  
So we step one two, then you know the rhythm now  
Step one two, let the music seep in  
Step one two, move with me  
There's nothing to it, so come on  
So come on, so come on
