

Kat, (You Got Me) Vampire

Billions of dreams wrecking my body
Damned choirs of ghosts arouses fear
Haunting my house for zears
Billions of teeth you have bitch
Wanting to bite through iron walls
And power of fate
This night you did it
You got me
You vampire
Drink blood
Pagan lust, frenzy - stop it
Bestial thought keeps telling me
Come - my body, let's spin
Hum of the world fades
Only your scream
Come to last vampire
You got me
You vampire
Drink blood.
