

Katatonía, A Darkness Coming

So near
So close
Something bad is seen
But I
Seem to be
The only one that can see
There is a darkness coming

And they
The others
They don't know a thing of what's next
But I'm not here to say
What should be done about this
I just lift my eyes to watch

I saw it coming
Something bad

So near
So close
Something bad is seen
But I
Seem to be
The only one that can see
There is a darkness coming
