

Katatonia, Day

Grey park look the same
And the days are pale
I never thought it would rain this way
I should be knowing that it used to be me
Let's stay here for a while
Is something gonna happen today
Your smile has decayed
It will never be the same
I never thought it would laugh again
I should be knowing this it used to be
Me let's stay here for a while
Is something gonna happen today
Now it's dark and you're colder now it's dark
And I'm older now it's dark and you're colder
And you tell me my parks are grey
Let's stay here for a while
Is something gonna happen today
Grey park look the same
All the days are pale
I never thought it would rain this way
I should be knowing that it used to be
Me let's stay here for a while
Is something gonna happen today
