

# Kate Alexa, Where We Belong

## Verse 1

I wake up in the mornin  
I just wanna hide  
I wanna get away  
And find my other side  
Another place I  
Just cant describe

## Verse 2

I call the girls up  
They all feel the same  
We know a place where  
We can hide away  
I gotta get away  
Before I go insane

## Chorus

Were runnin away for good vibrations  
Were finding our way to sweet sensations  
Were runnin away to where we belong  
Yeah  
Were searching our way through deep blue oceans  
Were making our way with our minds in motion  
Were gonna be where we all belong  
Where we all belong

## Verse 3

So come on  
Lets move away from the shore  
Lets drift away  
Above the ocean floor  
Cant get enough  
Want it more and more

## Verse 4

Dont wanna think about  
When this has to end  
I wanna think about  
How it all began  
I dont care coz  
Im havin fun with my friends

Yeah

## Chorus

Were runnin away for good vibrations  
Were finding our way to sweet sensations  
Were runnin away to where we belong  
Yeah  
Were searching our way through deep blue oceans  
Were making our way with our minds in motion  
Were gonna be where we all belong  
Where we all belong

## Verse 5

And evry time we feel this way  
Our secret place will save our day  
Where we will always feel free

## Chorus (x2)

Oh,

Were runnin away for good vibrations  
Were finding our way to sweet sensations  
Were runnin away to where we belong  
Yeah  
Were searching our way through deep blue oceans  
Were making our way with our minds in motion  
Were gonna be where we all belong  
Where we all belong
