

Kate Bush, Come Closer To Me Babe

Come closer to me, babe,
And the night will come much closer, too.
Can't you see the light
Drawing pictures nearer in the skies?

What is it that you whisper
When you close your eyes?
Come closer to me, babe.
Is it me it's all about?
And who is it that you're always
Calling in your sleep?
Who is Sylvia?

Goodnight, baby. Please
Come on home,
Come on home,
Come on home soon.

Goodnight, baby,
Goodnight, baby,
Goodnight, baby,
Goodnight, baby.

Come closer to me now,
For I know there's something you must tell me.
When slumber slips between your lips
Will the secrets ooze out easily?

What is it that you whisper
When you close your eyes?
Come closer to me, babe.
Is it me it's all about?
And who is it that you're always
Calling in your sleep?
Who is Sylvia?

Goodnight, baby. Please
Come on home,
Come on home,
Come on home soon.

Goodnight, baby,
Goodnight, baby,
Goodnight, baby,
Goodnight, baby.
