

# Kate Ryan, Free Your Mind

Elevated, I feel elevated  
I feel the love inside  
I dont want to hide  
Communication - is our destination  
Be what you wanna be  
Let the music set you free  
Music set you free (x2)  
Life is the key  
What you want it to be  
Release your mind  
Release your mind  
Open yourself  
To the universal truth  
Free your mind  
Free your mind  
I close my eyes and I realise,  
Something deep inside  
Makes me feel alive  
I seek to find, a better state of mind  
Im gonna live my life  
I'm reaching for the sky  
Reaching for the sky (x2)  
Life is the key, what you want it to be  
Release your mind  
Release your mind  
Open yourself to the universal truth  
Free your mind
