

Kate Ryan, Robots

Stop what you do cause we are the robots
Stuck in a world that tries to control us

You, you are the static in my dreams
Secure of electricity
Like a loop, it's always o-o-on repeat
I got revolution in my soul
Like jingel bell
Said: "I'll be?we got to go?"

Stop what you do cause we are the robots
Stuck in a world that tries to control us

Robots robots
Robots robots

You, won't make ? out of me
I feel the rhythm in my feet
A fistic pounding of the beat
Love, I see the wire in your veins
But tell the truth of how you pain
So many things we can't explain

Stop what you do, cause we are the robots
Stuck in a world that tries to control us

Robots dance dance dance
Dancing robots dance
Robots dance dance dance
Dancing robots dance

Stop what you do cause we are the robots
Stuck in a world that tries to control us

Stop what you do cause we are the robots
Stuck in a world that tries to control us
