

Kate Todd, Half of me

My head hurts
I woke up from a dream
I swore i saw you
From here
I don't know if it's true
I'm so far from you
And half of me
Is with you
Half of me is with you
I paint a promise
Underneath your stars
Just have faith
Another day
And i've tried and i've lied
To be with you
And now you're
So far away
And half of me
Is with you
Half of me is with you
While you teach the angels
A thing or two
Half of me is with you
I stand out in the rain
And i say your name again
I can't reach you
And i can't feel you from here
My dear
And half of me
Is with you
Half of me is with you
And when you teach the angels
A thing or two
See half of me is, is with you
