

Kate Todd, Miles away

I see you floating like a ghost
Outside my open window
And I've been trying to let you know
That I'll be there where you go
I'll find my way
I'll find you
Miles away but I'm still there
We came so close to love I swear
Just killing time until I
Find my way back
Miles away but you're still here
I close my eyes and you appear
Just killing time until I
Find my way back
I watch the sun fade into red
Another day without you
Your words are burning in my head
I send a flare to remind you
I'll find my way
I'll find you
Miles away but I'm still there
We came so close to love I swear
Just killing time until I
Find my way back
Miles away but you're still here
I close my eyes and you appear
Just killing time until I
Find my way back
To you, to you
I'm gonna find my way back
To you, to you
Hold on
'cause I'm just not right without you
How long
Can I dream alone
Hold on
Gonna find my way back
Miles away but I'm still there
We came so close to love I swear
I'm gonna find
I'm gonna find my way back
To you, to you
I'm gonna find my way back
To you, to you
I'm gonna find my way back
Miles away but I'm still there
I'm gonna find my way back
Just killing time until I
Find my way back
To you, to you
I'm gonna find my way back
Just killing time until I
Find my way back
To you to you
I'm gonna find my way back
To you
Ya to you
