

Kate Voegele, Forever & Almost Always

So the story goes on down the less traveled road
Its a variation on the one I was told
And although its not the same
its awful close, yeah
In an ordinary fairytale land,
theres a promise of a perfect happy end
And I imagine heaven just sort of that
Its better than nothing
So youll be mine forever and almost always
And ill be fine, just love me when you can, yeah
And ill waiting patiently
Ill wake up every day just hoping that you still care
In the corner of my mind, I know to well
Oh that surely even I deserve the best
But instead of leaving I just put the issue to bed and out of my head
Oh and just when I believe youve changed for good
Oh well you go and prove me wrong just like I knew you would
When I run out of second chances, you give me that look
And your off the hook
Because your mine forever and almost always
When Im fine, just love me when you can. yeah
And ill wait patiently
Ill wake up everyday just hoping that you still care
Oh, What am I still doing here?
Oh, Its all becoming so clear. Yeah
Youll be mine forever and almost always
It aint right to just love me when you can, Oh
I wont waiting patiently
Or wake up everyday just hoping that youll still care
Forever and almost always
No it aint right to just love me when u can, Baby
Aint going to wait patiently
I wont wake up everyday just hoping that youll still care
