

Katerine, All night long

I wanna hold you
All night long
I wanna love you
All night long
I've got to make you mine tonight
And I don't wanna waste no time
My mind is filled with sweet delight
Fulfill my dreams it feels so nice
I want your fingers touch my skin
So you could feel my love within
Oh baby please my body's burning burning
I wanna hold you
All night long
I wanna love you
All night long
Your eyes give away
What you wanna say
Wanna know just what you're thinking
You light up my flame
Whispering my name
Feel it rushing through my veins
My eyes give away
What I wanna say
Wanna know just what I'm thinking
And I nearly came
Whispering your name
Feel it rushing through my veins
I gotta make you mine tonight
I don't wanna waste no time
Oh baby please my body's burning
