

# Katerine Duska, Of Time

Are we out of time?  
Are we out of time?  
How we gonna make it better?  
If we're gonna lie together?

Are we out of time, 'cause sure feels like it but I can't decide  
(nothing real ever comes easy)

Paradise, hard to find, when you've given up your mind  
(nothing real ever comes easy)

An hourglass on our shoulders, set up, oooooooh!  
Regressing as we get older  
'Cause nothing real ever comes easy  
Nothing real ever

Are we out of time?  
Are we out of time?  
How we gonna make it better?  
If we're gonna lie together?

Are we out of time?  
Are we out of time?  
Is this really it forever?  
Complicit in the fix together?

Are we out of time, got a countdown, gotta step, gotta step up  
Something on my mind & the dawn won't make shut up, make me shut up  
Are we out of time, are we out of time, are we outta, are we outta?  
Are we out of time, are we out of time, are  
we outta, are we outta?

Are we out of time?  
Are we out of time?  
How we gonna make it better?  
If we're gonna lie together?

Are we out of time?  
Are we out of time?  
Is this really it forever?  
Complicit in the fix together?

There's an undertone, I feel it right here, right here  
Don't know if we'll ever be alright  
Living in the upside down, we're all so lonely here  
Looking for someone to shed a light

Are we out of time?  
Are we out of time?  
How we gonna make it better?  
If we're gonna lie together?

Come alive, come alive

Are we out of time, are we out of time, are we out of time? (heeeeey)  
Are we out of time, are we out of time, are we out of time? (heeeeey)  
Are we out of time, are we out of time, are we out of time? (heeeeey)  
Are we out of time, are we out of time, are we out of time? (heeeeey)
