

Katerine, Enjoy The Day

Sometimes your body's feeling low
You're just happy that the day is gone
Just wanna make each minute count
But at the end of the day what have you done?
Here comes the sun
Like a heart of gold for everyone
Here comes the sun
To tell that you're welcome

Enjoy the day
Why do today what you can do tomorrow?
Enjoy the day
Open the door and open all the windows

How many times I've wasted inside looking outside
You get things done but the day is gone
I've learned to speak my mind and just say no
If it's always yes more work will come
Here comes the sun
Like a heart of gold for everyone
Here comes the sun
To tell that you're welcome

To enjoy the day
Why do today what you can do tomorrow?
Enjoy the day
Open the door and open all the windows

This is not just a summer song
It could be winter, spring, fall
To enjoy the day
Why do today what you can do tomorrow?
Enjoy the day
Open the door and open all the windows

Enjoy the day
Why do today what you can do tomorrow? /x2
