

Katerine, Loose My Mind

You got your back against the wall I can see
I like a guy if he keeps staring at me
I get caught up in your game should I hide
My naughty thoughts Ill go to bed with tonight
You want me to dance
I know you will glance
I dont need romance
I dont need love
The feeling gets stronger
It wont take much longer
Dont try to resist Ill make your body scream for more
Take it easy take your time
Tonight Im gonna make you mine
Take it easy take your time
Come on give me some and Ill give you mine
This can be our night boy just you and me
Temptation and seduction is killing me
My hunger for your body makes me wanna hit the ground
You just make me loose my mind
Im not a girl who gives herself just away
This is my night boy and I just like to play
This big attraction will drive me insane
But let me warn you I will conquer your brain
Ill make you discover
I dont need no other
Ill let you uncover
I dont need love
The feeling gets stronger
It wont take much longer
Dont try to resist Ill make your body scream for more
Let it be
Let it lead you this chemistry
I dont need love
Follow me
Ill fulfil all your fantasies
I dont need love
