

Katerine, Upon the catwalk

You wanna get upon the catwalk
You gotta want it bad
You gotta want it bad
Girl you got it but you gotta get with it
Dont think you could just get it like that
Oh silly girl youre one in a million
You better work it out and work that outfit
Give me a three / four pose to my camera
Fake it till you make it girl youve gotta have the stamina
You wanna get upon the catwalk
You gotta want it bad
You gotta want it bad
Living in a big bubble
You gotta want it bad
You gotta want it bad
Your face in every magazine aint that a dream to dream
Only you can make it happen now youre still fresh and green
You still look like miss milk bottle
Catch the light and work with it
Im not looking for a cool hard rebel
But you gotta give me more than that
Dont be a bitch dont waste my time
If you wanna keep working use your mind
