Katerine, Upon the catwalk

You wanna get upon the catwalk

You gotta want it bad

You gotta want it bad

Girl you got it but you gotta get with it

Dont think you could just get it like that

Oh silly girl youre one in a million

You better work it out and work that outfit

Give me a three / four pose to my camera

Fake it till you make it girl youve gotta have the stamina

You wanna get upon the catwalk

You gotta want it bad

You gotta want it bad

Living in a big bubble

You gotta want it bad

You gotta want it bad

Your face in every magazine aint that a dream to dream

Only you can make it happen now youre still fresh and green

You still look like miss milk bottle

Catch the light and work with it

Im not looking for a cool hard rebel

But you gotta give me more than that

Don't be a bitch dont waste my time

If you wanna keep working use your mind
