

# Katie Kadan, Without You

I'm gonna walk through the valley, leave the shadows far behind  
I'm gonna climb over mountains, just to see the other side  
Give my soul to the river to wherever it goes to  
I know someday I'll get there  
With or without you

(With or without you)  
I can catch the sun, I can let it shine  
(With or without you)  
I can slow my roll, I can take my time  
(With or without you)  
I can have it all, I can live my life  
(With or without you)  
I can stand up tall and testify

Someday I'll sail across the ocean, just to see what I can find  
With my heart overflowing and my eyes open wide  
I'll wake up every morning, feel the sunshine on my face  
And realize I'm doing it my way

(With or without you)  
Gonna chase the sun, gonna let it shine  
(With or without you)  
Gonna slow my roll, gonna take my time  
(With or without you)  
Gonna give it all, gonna live my life  
(With or without you)  
Gonna stand up tall and testify

Whatever I wanna do, I'm gonna do it  
With or without you

Now that we're here, you need to know  
You came along, or you can go  
Whatever you want, whatever you do  
I've made up my mind, I'm gonna get there  
With or without you  
With or without you, yeah

(With or without you)  
Gonna chase the sun, gonna let it shine  
(With or without you)  
Gonna slow my roll, gonna take my time  
(With or without you)  
Gonna give it all, gonna live my life  
(With or without you)  
Gonna stand up tall and testify  
(With or without you)  
Gonna chase the sun, gonna let it shine  
(With or without you)  
Gonna slow my roll, gonna take my time  
(With or without you)  
Gonna give it all, gonna live my life  
(With or without you)  
Gonna stand up tall and testify

With or without you
