

Katie Melua, 14 windows

Utwór '14 windows' z albumu 'Love & Money' od Katie Melua (premiera 24 marca 2023r.)

You'd say what's on your mind needs to come through
That's the only way to fix it for you

It's good to let a little peace inside you
Otherwise the flame will freeze inside you
The whole life that you've seen around you
The patterns of life that you felt around you
It's good to let a little peace inside you
Get some of that weight released around you
It's good to let a little peace inside you

You see how words can play out on you
If words can fly, then tell me, won't you?
Take the call and say you're right there

It's good to let a little peace inside you
Otherwise the flame will freeze inside you
The whole life that you've seen around you
The patterns of light that had weight around you
It's good to let a little peace inside you
Get some of that weight released around you
It's good to let a little flow unwind you

Ooh, do you need it all?
Ooh, take the call
Ooh, let it go

It's good to let a little peace inside you
Otherwise the flame will freeze inside you
The whole world that you've seen around you
The patterns of light that had weight around you
It's good to let a little peace inside you
Get some of that weight released around you
It's good to let a little flow unwind you
