

# Katy B, Blue Eyes

I couldn't be less like you  
I like all you like too  
I like freedom, you like safety  
While I call it free, you call it crazy

You like to say how you feel  
I pretend my problems aren't real  
But you, you get it out of me  
I tell you all my secrets, all my dreams

And somehow it just works  
Somehow we just click  
You know you have my heart

When I see your?  
Blueeeeeee eyes  
Let me see the whole of you  
Nothing is left to hide  
Now I see the shade of blue

Feel it watching over me  
Hold me in your company  
Come feel  
What they do  
Well I love it too

Oh I could never feel? blue?  
Oh I could?  
Oh I could never feel? blue?

I like it rough if you like slick  
I watch my words, you say them quick  
I like champagne but you don't like the taste  
So I drink yours cause I don't like to waste

I like it candle, you like boojy  
But I like it most when it's just you and me  
And I do anything to turn you on  
Do as you wish cause you can do no wrong

And somehow it just works  
Somehow we just click  
You know you have my heart

When I see your?  
Blueeeeeee eyes  
Let me see the whole of you  
Nothing is left to hide  
Now I see the shade of blue

Feel it watching over me  
Hold me in your company  
Come feel  
What they do  
Well I love it too

Oh I could never feel? blue?  
Oh I could?  
Oh I could never feel? blue?

You're my blue-eyed boy  
Tell me how you bring me so much joy  
Keep on doing just what you do  
Cause I don't need the world, I just need you

You're my blue-eyed guy  
Tell me what you do that makes me high  
Keep on doing just what you do  
Cause I don't need the world, I just need you

Blueeeeeee eyes  
Let me see the whole of you  
Nothing is left to hide  
Now I see the shade of blue

Feel it watching over me  
Hold me in your company  
Come feel  
What they do  
Well I love it too

I could never feel blue  
Looking in your, looking in your?  
I could never feel blue  
Oh oh oh oh  
I could never feel blue  
I could never feel blue  
I could never feel blue  
Looking in your, looking in your?  
Blue eyes?
