

# Katy Perry, Artificial (feat. JID)

Who's gonna save us  
From losin' our minds?  
Oh, you're so dangerous  
Devil in disguise  
Why you so, why you so  
Why you so, why you so artificial?

You got me divin' deep in your system  
I'm just a prisoner in your prison  
You got me hooked on your algorithm  
Are you real or artificial?  
So what's the deal, huh?  
Tell me, are you fake or are you real, huh?  
How do I connect if I can't feel ya?  
Sooner or later, I will reveal ya  
Artificial, so what you're thinkin'?  
Do you put emotions over reason?  
Are you gonna love me like a human?  
Can you touch me in a simulation?

Who's gonna save us  
From losin' our minds?  
Oh, you're so dangerous  
Devil in disguise  
Baby, tell me, tell me  
Does your heart beat, heart beat? (Oh)  
Who's gonna save us  
From losin' our minds?

Why you so, why you so  
Why you so, why you so artificial? (Uh, look)

Am I trapped in a maze? Are we lost in the matrix?  
Animalistic instinct, it's all nature  
Behind enemy lines of animation  
Scribbled upon a page, we're stuck in a simulation  
Stuck in between a rock and a hard place  
You know the sayin', I'm dealin' with similar situations  
I see the angles that everybody takin'  
Angels, demons, a lotta demonstrations  
Artificial intelligent information  
I been developin' truth  
I took a bite into the bitterest forbidden fruit  
It's not a vitamin, venom is unpredictable  
Too many vices, I hear the voices, sirens then silence  
It's gettin' closer, I'm closin' my eyelids  
And when it's over, my head to the sky  
And I realize everybody wears a disguise

Who's gonna save us  
From losin' our minds?  
Oh, you're so dangerous  
Devil in disguise  
Baby, tell me, tell me (Tell me)  
Does your heart beat, heart beat? (Oh)  
Who's gonna save us  
From losin' our minds?

Why you so, why you so  
Why you so, why you so artificial?
