

# Katy Perry, I'm Still Breathing

I leave the gas on, walk the alleys in the dark  
sleep with candles burning, I leave the door unlocked  
I'm weaving a rope and, running all the red lights  
did I get your attention cause I'm sending all the signs (that)  
the clock is ticking, and I'll be giving my two weeks  
pick your favorite shade of black, you best prepare a speech  
say something funny, say something sweet  
but don't say that you loved me

Cause I'm still breathing  
And we've been dead for a while  
this sickness has no cure  
we're going down for sure  
already lost a grip  
best abandon ship

Maybe I was too pale, maybe I was too fat  
maybe you had better, better luck in the sack  
no formal education and I swore way too much  
but I swear you didn't fucking care cause we were in love  
so as I write this letter and shed my last tear  
it's all for the better that we end this here  
let's close this chapter, say one last prayer  
but don't say that you loved me

Cause I'm still breathing  
And we've been dead for a while  
this sickness has no cure  
we're going down for sure  
we've been diagnosed, so let's give up the ghost  
Cause I'm still breathing  
And we've been dead for a while  
this sickness has no cure  
we're going down for sure  
already lost a grip  
best abandon ship

...oh I'm still breathing...  
...I'm still breathing...
