

Katy Perry, Lifetimes

I love you for, I love you for life
Lifetimes
I love you for, I love you for life
Lifetimes

I know you feel it, can you believe it?
I'm gonna love you 'til the end and then repeat it
I know you feel it, can you believe it?
I'm gonna love you 'til the end and then repeat it

Like the sun is always rising
Like the stars up in the sky
You and I will find each other
In every single life

Baby, you and me for infinity
My eternity, my eternity
Baby, you and me for infinity
My eternity, my eternity

I love you for, I love you for life
Lifetimes
I love you for, I love you for life
Lifetimes

I know you feel it, can you believe it?
I'm gonna love you 'til the end and then repeat it
I know you feel it (Feel it), can you believe it? ('Lieve it)
I'm gonna love you 'til the end and then repeat it

For life, for life
For life, for life

Baby, you and me for infinity
My eternity, my eternity
Baby, you and me for infinity
My eternity, my eternity

I love you for, I love you for life
Lifetimes
I love you for, I love you for life
Lifetimes

I know you feel it, can you believe it?
I'm gonna love you 'til the end and then repeat it
I know you feel it (Feel it), can you believe it? ('Lieve it)
I'm gonna love you 'til the end and then repeat it

Gonna love for life, for life
For life, for life
