

# Katy Rose, Cool Whip

This song is called cool whip  
I don't know why  
I'm building you some bridges  
So you can come and see me sometime  
Trying to save the music  
With peace and wine  
So we'll make love and abuse it  
It'll be better this time  
Fridges filled with spilled milk  
From the 99  
Oh I never thought that I'd write a love song  
But I guess I just wrote one  
Never thought I was that kind of person  
Well never been so wrong  
Cause when I'm tired oh baby  
You're my cocaine  
And when I'm hot oh you  
You are my rain  
The days I'm crazy  
Oh you make me sane  
And when I'm crippled  
You're my cane  
Well I never thought I'd write a love song  
But I guess I just wrote one  
Never thought I was that kind of person  
I've never been so wrong  
Never thought I'd write a love song  
Ooo yeah  
I think I just wrote one  
Never really considered myself that kind of person  
but I, I tend to be wrong
