Keahiwai, Baby I

you tell me i'm the one for you i'm not so sure if what you're saying's true cause i don't give my heart that easily and i'm so confused why you choose me

baby i, don't understand it you got that strong hold on me baby i, don't recommend it the way you keep pushing me

you tell me that i light up your world why do i fear you're with other girls or maybe i'm just the one who's acting silly you're just a dream come true i don't know why you still want me

baby i, don't understand it you got that strong hold on me baby i, don't recommend it the way you keep pushing me

don't worry baby, you don't have to sweet talk me or second guess yourself and feel you should agree i just don't want to move too fast, no no cause i love us, and don't you rush and if you're true you'll make it last

(repeat)

baby i, don't understand it you got that strong hold on me baby i, don't recommend it the way you keep pushing me
