

Keaton Simons, Now

Now

I dont wanna talk to you
I dont wanna know your name
I dont wanna feel your pain
I dont wanna be a part of
a never ending sore
I dont wanna leave you anymore
I wanna know you
Wanna to live with you
I wanna to grow on you
Wanna grow up with you
I wanna get down with you
Lets fast forward
Forget the introduction
Lets jump in
We can skip the whole production
Dont waste time with remedial seduction
Get in it, get on it
Im here if you want it

Now

I dont wanna be without
I dont wanna take the blame
I dont wanna be attained
I dont wanna be remembered as the one who never called
I dont wanna be like that at all
I wanna know you
Wanna to live with you
I wanna to grow on you
Wanna grow up with you
I wanna get down with you
Lets fast forward
Forget the introduction
Lets jump in
We can skip the whole production
Dont waste time with remedial seduction
Get in it, get on it
Im here if you want it

Now

I dont wanna be
Another
To hover over you
I dont wanna be
Just some lover
I cant deny
I dont wanna talk to you
I dont wanna know your name
I dont wanna feel your pain
I dont wanna be a part of a never ending sore
I dont wanna leave you
Lets fast forward
Forget the introduction
Lets jump in
We can skip the whole production
Dont waste time with remedial seduction
Get in it, get on it
Im here if you want it
Lets fast forward
Forget the introduction
Lets jump in
We can skip the whole production
Dont waste time with remedial seduction
Get in it, get on it
Im here if you want it

Lets
Get in it, get on it
Im here if you want it
