

# Kecak, Wailing and Gnashing of Teeth

###

It's really not too hard now

###

###

You've got bills to pay but guess what

###

No justice left now shut up or ship out

There's so much wailing so much gnashing of teeth all around

I don't care to battle it out if you can't pull the ###

No kidding!

Just give me the ###

Just give me the ###

Just run away with the circus

###

###

###

###

You know I love you're accent

Pins and needles ###

###

###

### but give up

Just start a revolution in a coffee shop

There's so much wailing so much gnashing of teeth all around

What good is language if you choke on your tongue

Ooo Ooo Ooo Ooo Ooo

No kidding!

Just give me the ###

Just give me the ###

Just run away with the circus

###

Get your ass out of bed and put your shoes on

Throw out the welcome mat, you ain't coming home

And if you never come back, well, that's what

You know, Robert Frost was a lousy drunk

But the road less traveled is what you want

And that's what has made all of the difference
