

# Keepsake, Lonliness

He's in the back of your mind  
All of the time  
Learn to forget, lovely forget  
When I sit alone  
I think of what you said  
Better off just friends, better off just dead

Chorus  
And the hardest thing I do  
Is wake up without you  
Everything falls apart  
The emptiness of of mind  
And the hardest thing I do  
Is wake up without you  
When everything falls apart  
The emptiness leaves a mark

When I sit alone

Better off just friends, better off just dead
