

Kehlani, shooter interlude

And I'm keepin' all this part too

Can I borrow some money? Can you call me an Uber?
My mama needs surgery and my son needs a scooter
Can you start up my start-up? Can you move my maneuver?
I think you need Jesus, I think you need a shooter

So who you be fuckin'?
Who you been foolin'?
How many bottles you got in your mini cooler?
"S" on your chest, but you never feel super
Do you ever feel stupid?
Do you call out for Cupid?
Can I borrow your chains?
Can I have your last name?
Can I come over later and can I overstay my welcome?
Downplay the helper
Don't say I ever
Borrowed your paper
Don't forget the favors I did for you

Before you blew up
Knew you before you grew up
I used to babysit ya
Dated your baby sister
I wanted babies with ya
Your daughter's supposed to be mine
Shouldn'ta wasted your time
Put a ring on your finger
'Cause you been datin' lames
And all those famous names
Playin' those famous games

So can I borrow some money? Call me an Uber
My mama needs surgery and my son needs a scooter
Start up my start-up, move my maneuver
I think you need Jesus, think you need a shooter

Think you need a
Think you need a shooter
I think you need Jesus, huh
Think you need a shooter
I think you need
