

# Keith Caputo, Cobain (Rainbow Deadhead)

I used to be so serious  
I used to be such a fool  
Rediscover a sweet blend hunger  
Did I do something wrong?

Screaming people enjoying funny  
Who got their piece of the pie?  
Romantic love, hot suicidal  
Cobain was murdered by you

Cobain was murdered by you  
Cobain was murdered by you  
Cobain was murdered by you  
Cobain was murdered by you  
Rainbow deadhead knew nothing

Chasing glass, the ground is kicking  
You get me really sick, really sick  
Run away and save the earthlings  
So wound up within you

We talked about growin' up with some comfort  
The crow is eating my eyes  
Deadhead blew me some pink and some yellow  
Cobain was murdered by you

Cobain was murdered by you  
Cobain was murdered by you  
Cobain was murdered by you  
Cobain was murdered by you  
Rainbow deadhead knew nothing

Whatever kind of sex you're into  
I was screwing in the zoo  
Romantic love, hot suicidal  
Cobain was murdered by you

Cobain was murdered by you...  
Rainbow deadhead knew nothing
