

Keith Moon, Do Me Good

Do me good, do me good
Do me good, do you good
Do me good, do us good tonight

Give it up, give it all
You never tried to call
You don't need me
But I need you, ooh

Give me room, give me space
You never showed your face
You don't need me
But I need you, ooh

Do me good, do me good
Do me good, do you good
Do me good, do us good tonight, right

Do me good, do me good
Do me good, do you good
Do me good, do us good tonight

Oh, tonight
She laid beside my side
Oh, tonight
Where will she be tonight?

Oh, darlin'

Do me good, do me good
Do me good, do you good
Do me good, do us good tonight, right

Tonight

Give it up, give it all
You never tried to call
'Cause you don't need me
But I need you, ooh

Give me room, give me space
You never showed your face
You don't need me
But I need you, ooh

Do me good, do me good
Do me good, do you good
Do me good, do us good tonight, right

Do me good, do you good
Do me good, do me good
Do us good, do us good tonight

Do me good, do me good
Do me good, tonight

Do me good, do me good
Do me good, tonight
