

# Keith Richards, Words Of Wonder

Now listen to me baby  
I keep it on so low  
And I whisper to you sister  
Now we&#039;re all alone  
Take no notice of me baby  
Like a dream  
Gonna keep it quit  
So I can hear you scream  
Words of wonder  
Are the words I wanna hear

I&#039;m sticking to you baby  
Until I arrive  
I&#039;m half dead, a quarter alive  
A little bit is missing  
Wonder where it&#039;s gone  
Pay me no attention  
I babble on and on  
Words, those words of wonder  
Are the words I wanna hear  
Those words, the words of wonder  
They are the words I wanna hear

Dripping from your lips  
Yeah, that&#039;s the way it goes  
That&#039;s the way it comes  
Ya&#039; know what I mean  
Now that your talkin&#039; to me baby  
Still you say that I&#039;m obscene  
Words, words of wonder  
They are the words I wanna hear  
Words, those words of wonder  
Are the words I wanna hear

Let me roll it over baby  
Now I got to jam it up  
Make you weep and moan  
Go around the back baby  
And make yourself known  
The words, these are words of wonder  
These are the words you better learn  
These are words, these words of wonder  
These are words, you ought to know

You been talkin&#039; to me sweetie  
You know I babbe on and on  
Ooh, I run away my tongue  
Giving thanks and praises  
Low friends in high places  
I&#039;m gonna whisper these words of wonder
