Keith Urban, Don't Shut Me Out

Don't shut me out maybe baby We should talk about it 'Cause you've got your doubts but maybe, baby They might be unfounded

Have a little faith you'll make it through I'd never hesitate to talk to you If you tell me just what's weighing on your mind Maybe it could help you sleep tonight So don't shut me out

Don't be so proud don't ya know that Before a fall it leaves ya And it'll take you down baby that ain't Where I wanna see ya

The sun'll rise tomorrow come what may And you'll feel better than you do today And in time you'll cry no more I know 'cause my heart's been there before

And here I am when you need someone My shoulder's yours to cry upon And everybody now and then Needs and understanding friend around So don't shut me out

Don't shut me out maybe baby
We should talk about it
'Cause you've got your doubts but maybe, baby
They might be unfounded
Listen to your heart and clear your mind
And you will find the answer every time
Every road you travel on will lead
To where it is your heart's supposed to be

And here I am when you need someone
My shoulder is yours to cry upon
And everybody now and then
Needs an understandin' friend around
So don't shut me out, don't shut me out
