

# Keith Urban, Only You

(Johanna Pigott and Todd Hunter)

I've been through ups and downs  
I haven't known which way to turn  
And when I wander through this town  
I only think of you

CHORUS

Only you, can take my bad heart and make it good  
Only you, can take my crooked path and make it new  
On the day that I was born  
The cards were dealt, the dice were thrown  
I think my destiny was drawn

REPEAT CHORUS

Only you, can take my bad heart and make it good  
Only you, can take my crooked path and make it new  
I built myself a prison cell  
The walls are painted blue  
Only you can let me out  
Only you

Only you, can take my bad heart and make it good  
Only you, can take my crooked path and make it new

CHORUS (Repeat to Fade)
