

Kelela, Contact

We're taking a ride, 405 through the west side
We're party to party, it's late but we're wide awake
The bass in my body, I'm sinking it's so wide
Time is surreal, now I'm floating in outer space

Rollin up, we bring in the light
It might just render you blind
We're working hard every day
Don't need your help I can pay

You're stressin, that's not allowed
There's nothing holding us down
You see my hips and they sway
Now see me walkin away
To the dance floor

Oh it's a sauna
Here if you wanna
I'm standing in the light
It's 2AM, yeah we made it
Everybody faded
So high, so high, so high
And now I'm floating away
Far and away
You know it feels so right
You tryna stall and delay
But I wanna play

We're hiding away in the back on a new high
I'll give you a taste if you're good but you gotta wait
Your hands on my body, the feeling is so right
I'd go all the way if it's up to me

Loneliness I see in your eyes
It might Just render you blind
Been getting harder these days
Contact we Just have to make
You're stressin, that's not allowed
Got nothing holding us down
You're leanin in, I sway
Baby let's dance it away

Oh it's a sauna
Here if you wanna
I'm standing in the light
It's 2AM, yeah we made it
Everybody faded
So high, so high, so high
And now I'm floating away
Far and away
You know it feels so right
You tryna stall and delay
But I wanna play
