

Kelis Ft. Cee Lo, Lil' Star

There is nothing special about me
I am just a little star
If it seems like Im shining its probably
It's probably a reflection of something you already are
I could get about my self sometimes when theres so many other around
When deep inside you feel the darkerss
That is where I can always be found 3x
Just keep trying & trying
Its just a matter of time and
Though this grinding is tiring
Dont get it stop you from smiling
Just keep trying & trying
Sooner or later youll find it
Its surprising how inspired
Its to see you shining
Cause in the dark of the night you're all i can see
and you sure look like a star to me
There is nothing special about me
I am just a lil star
If you try to reach out and touch me
you'll see that I'm not really that far
Oh I may not be the brightest no
Am I the last one you see
Well its hard has to know that
Lets just fine with me
Everything just fine with me 2x
There is nothing special about me
I am just a lil star
Im the one and jumpin
But barely getting, getting over the bar
I never be much more than
Just keep trying & trying
Its just a matter of time and
Though this grinding is tiring
Dont get it stop you from smiling
Just keep trying & trying
Sooner or later youll find it
Its surprising how inspired
Its to see you shining
Cause in the dark of the night you're all i can see
and you sure look like a star to me
