

Kelis, Keep It Down

Hey whatcha know
Outside of the beastie boys show
Saw that kid that tried to get with me
He said by the way where ya been
Are you still wit that boyfriend
I said no with an evil grin
Wanna hook up but i thought again

Meet him on the train one day
When I was wrapped in pain
He said I love you
In more ways than I've ever heard
And before I got his name I thought it might be ok
To use for service to take some pain away

I know guys that talk around town
Girls like me wanna keep it down
Dope boy fresh in all your clothes
Want that girl where anything goes
Yeah beat boys want all the fame
Girls get hurt when you play that game
You weren't concerned in how I feel
No thank you i'd rather chill

Hey whats the deal
I'll let you know if things get ill
Can't hook up when you call the shots with me
But ya got things that i'd like to see
Soft porn doesnt do it for me
I don't like sex and drugs wit me
I don't like sex and drugs wit me

And one day on the train
I'd never leave my man stray
I don't deserve this
In more ways than I've ever heard
But instead of bein scared
His words just went straight to me head
And I got nervous and left my love away

I know guys that talk around town
Girls like me wanna keep it down
Dope boy fresh with all your clothes
Pop that girl if anything goes
Yeah beat boys want all the fame
Girls get hurt when you play that game
You weren't concerned in how I feel
No thank you i'd rather chill
I know guys that talk around town
Girls like me wanna keep it down
Dope boy fresh with all your clothes
Pop that girl if anything goes
Yeah beat boys want all the fame
Girls get hurt when you play that game
You weren't concerned in how I feel
No thank you i'd rather chill
