

Kelis, Stick Up

...Let's go...

I've been lovin' u for here long knowin' I was never clear
But I have no fear today cause I'm gonna say
What I gotta say, I don't wanna play the role
Bustin' through the door, I'm gonna take ur heart fo' sure, oh

Put ur hands up in the air, it's a stick up
I'm gon take ur heart from here, now let's fix up
Put ur hands in the air, in the air, in the air

I'm gonna play my cards from here
And take this gamble sure
My words are gonna fumble, but this beat is mighty humble
Ain't goin nowhere, sure I'm scared but my life's a dare
And baby u just got so much flare, we'll be the perfect pair
I'm gonna share my mind with u, u've been blinded
My life's been blue, I'm takin u, I'm takin u

Put ur hands up in the air, it's a stick up
I'm gon take ur heart from here, now let's fix up
Put ur hands in the air, in the air, in the air

Put ur hands up in the air, it's a stick up
I'm gon take ur heart from here, now let's fix up
Put ur hands in the air, in the air, in the air
In the air, in the air, in the air

When I first met u, I wanted to wet u
Not a gun but a different content, sexual
U tried to run, I still get u
Steel metal not needed, a whole 'nother meaning
Don't want ur gold, want ur soul
Control ur heartbeatin, cause when I start squeezin that muscle
That's the trigger, than I got u nigga, in ya
Chopper spinners, got ur bodyguards wit cha
Diamond dog tag chain swingin, I had them thangs ringin

This is a robbery, no one's gettin free
Till that man, he comes with me

Put ur hands up in the air, it's a stick up
I'm gon take ur heart from here, now let's fix up
Put ur hands in the air, in the air, in the air
