

Kelis, Surfin' for love

Super fun world
smiling my heart out
some where real far away
in a digital world
messages disrupt my day
been sitting on my butt since Wednesday
tried to hit you on your two way
your mailbox was full
we can meet tonight by satellite
what about half past midnight
I should just be off my flight
but for now I'll just dance and think about you
Electric life electric life electric life
electric life electric life electric life
lets just
freak out freak out freak out
me and you all alone
freak out freak out freak out
but how we gonna freak off on the phone
I thought were supposed to have a date
I guess he couldn't help but be late
Its ok I had to go, I had this conference call phone ya know
I'm glad you paged me to say sorry
cause I know your thinking of me
don't worry baby I'm not angry
cause for now I'll just dance and think about you
Electric life electric life electric life
freak out freak out freak out
me and you all alone
freak out freak out freak out
