

Kelis, What is this

This is my story
This is my mark
For all of the ages
Until its so dark
Like a grave thats been found
Or flames that began at first spark
This is my song
This is my story
This is my mark
From beginning to start
Or where the worlds been born
Weve all gotta fly
Ill tell you why
The way you die has always been a lie
Cuz one day is so far off here
Your childrens babies babies babies babies will know
That Kelis was here!
