

Kelis, Young, Fresh And New

Young and different, uh
She looked at a condom, uh
And could still see the sun, uh
Do you remember 21, uh?
Can I stay to wait huh?
Grow up today huh
Can you really blame her?
Shit you couldn't even stay home
When the world feels like it's coming and
And you don't know what you know
And you think about what's holding you
It's relatives and close
Just leave it all behind, you gotta get away
You gotta get away
Everybody
See the look in my eye, uh
I've gotta get it out, uh
I don't care if they stare, uh
I know life's not fair, uh
I'm gonna play while I'm here, huh
I gotta get out, huh
Just watch me run away now
Uh, you know sometimes you just gotta
HEY!
Run away from home
Run away from (young, fresh and new) home
Run away from home
Run away from...
(Got to get away...)
I've got to get away
Hey...
(I've got to get away...)
I've got to get away, yeah
HEY!
Run away from home
Run away from (young, fresh and new) home
Run away from home
Run away from...
When the world feels like it's coming and
And you don't know what you know
And you think about what's holding you
It's relatives and close
Just leave it all behind, you gotta get away
You gotta get away
Everybody
(Got to get away...)
Gotta get away
Hey, hey...
(I've got to get away...)
I've got to get away, yeah
Hey...
But I've gotta be young, fresh, and new
HEY!
Run away from home
Run away from (Young, fresh and new) home
Run away from home
Run away from...
HEY!
Run away from home
Run away from home
Run away from home
Run away from...
HEY!
Run away from home

Run away from home
Run away from home
Run away from...
When the world feels like it's coming and
And you don't know what you know
And you think about what's holding you
It's relatives and close
Just leave it all behind, you gotta get away
You gotta get away
Everybody
