

# Keller Williams, Kidney In A Cooler

a break in the schedule  
sufficient coolant leak  
well we thought we were doing the right thing  
now you cannot be too picky  
in Cheyenne on a Sunday  
then up walked the mechanic  
with the perpendicular teeth  
perpendicular teeth, oh yeah

by the 17th hour  
they pulled us up in the bay  
and funky tooth started diggin'  
down under the hood  
after clearing a path to the water pump  
and taking a four hour break  
by hour 27 we were all good  
then we sailed from Little America, oh yeah

only two days later  
on the way down to Deep Elem  
we broke down in Oklahoma  
where a wind come behind the rain  
we got towed to a town called Perry  
where a woman's car took priority  
she had a kidney in a cooler  
so two nights we had to stay  
so she could deliver the kidney, oh yeah

when you go down to Deep Elem  
down to the Gypsy Tea Room  
tell 'em I'm broke down in Perry  
and I'll try to make it back soon  
oh sweet mama  
your daddy got them Deep Elem blues  
oh sweet mama  
your daddy got them Deep Elem blues

now I know I will be paying  
on the concept after it's through  
unrealistic, maybe  
but there's something I gots to do  
I need a big ass bus with a satellite dish  
a double-decker double-wide what I wish  
I dream open eyed  
that this be true  
my double-decker double-wide, oh yeah

it's gonna have two icemakers  
in both refrigerators  
a silent but violent generator  
to run the subwoofers and the disco ball  
the escalator up to the dance hall  
on the second floor with a giant sky light  
driving range and jacuzzi just right  
for skinny dipping right after the show  
at 80 miles an hour  
it's worth all the dough

until then I'll stand on the corner  
with a sign that says  
I will work for my  
double-decker double-wide

perpendicular teeth

in Little America  
deliver the kidney  
in my double-decker double-wide
