

# Kelli Ali, Ideal

generation x is doin' fine  
we don't care what's next  
we wanna blow our mind

hey girl, put on your make up  
it's time to wake up  
you're such a pretty zombie  
hey girl, we'll smoke a cigarette and then we'll soon forget that we were ever  
so ideal

I spy, nothin' new  
perfect  
me and you

so hey girl, put on your make up  
it's time to wake up  
you're such a pretty zombie  
hey girl, we'll smoke a cigarette and then we'll soon forget that we were ever  
so ideal

ah daddy it's cryptic as cherry bomb lipstick all over your chick's dick baby  
hey girl, you look like a ghetto, dressed up in stiletto  
oh you were never so ideal

never so ideal  
never so ideal  
never so ideal
